

# Power Assurance Package

## “We deliver to you complete critical-equipment protection solution”

Today’s fast-paced business environment and highly intense competition restricts customers’ IT resources to do more with less. Concurrently, as organizations continuously embrace new IT and communication technologies and as they rely on these systems to be always on, always available, system downtime is not an option.

Maintenance of the equipment protecting these systems is becoming increasingly important. Service is essential to achieving the continuous availability that the business demands -- and no one is better equipped to deliver critical power than Emerson Network Power. Emerson’s Power Assurance Package is our solution.

### Service Features

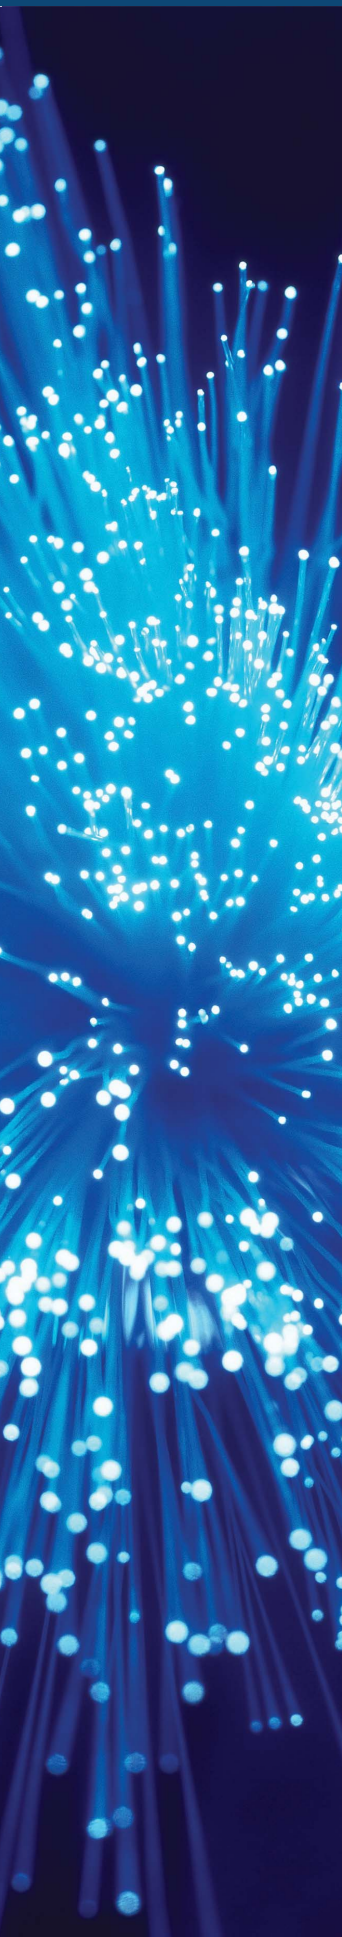

Emerson combines the best of its Installation/Start up service and Extended Warranty service in one ultimate package, which provides a total 5-year maintenance protection (including internal batteries) and on-site service by an Emerson certified personnel. This combination package provides our customers a complete end-to-end solution which guarantees availability and peace of mind. Not only that, the service package comes with the best and reliable UPS systems in the industry today. Power Assurance Package is offered together with Liebert GXT4.5kVA, Liebert GXT6kVA and Liebert GXT10kVA UPS products.

Power Assurance Package
